**Decentralized live streaming  
network powered by music  
and pop culture creators**

**LITEPAPER**

*Created: March 18, 2021  
Version 1.1*

This whitepaper introduces the Reel Mood Network, a new token as the incentive mechanism for a decentralized video streaming and delivery network.

The Reel Mood Network and protocol address a number of issues that the video streaming industry is currently facing.

To begin with, Reel Mood Tokens are used as a motivator for individual users to share their redundant computing and bandwidth resources as video stream caching nodes.

The Reel Mood Network will launch with ERC20-compliant tokens and will be integrated into the ReelMood.tv platform in 2021.

Reel Mood Tokens (RMD) has a plan to launch in Q2 of 2021, while the streaming network will launch in Q3, at which time RMD Tokens will be publicly traded on a decentralized exchange.

# REEL MOOD NETWORK OVERVIEW

## INTRODUCTION / VISION

ReelMood Network will be using the aspect of block chain and cryptocurrency in its operations. Our video creators and content makers will have a chance to share their content with various audiences around the world, which will allow them to live stream their content, monetize and sell their NFT's all in 1 platform.

Reel Mood will live on top of a decentralized IP and will be receiving decentralized video server support using nodes.

This allows less sanctions across the internet and more diverse opportunities for creators.

## LAUNCH OF TOKEN

Once the actual exchange launch of Reel Mood Tokens will take place, our video and music makers will have chance to convert their earning into money or other forms of cryptocurrency which can be used in purchasing of the goods and services. For viewers to have to earn, they will also be need to keep on streaming most of our content in our website on our different social media accounts.

## CHALLENGES

For many years, the music industry has faced some challenges. For instance, poor quality video streaming due to insufficient network bandwidth in remote corporate offices or branches. Incessant video buffering and high latency during live events. Costly investments in content delivery networks (CDNs) for video distribution. ReelMood.tv will give viewer chance to have access to the same content at a cheaper, quality and reliable manner.

Along with high resolutions and bitrate, a large number of data is presented and this number of transactions can lead to delays and reliability issues. And as video professionals, we have been on the other side and have seen for ourselves how difficult it is to deliver high quality video to viewers on a scale. The latency blocking will be provided by ReelMood.tv.

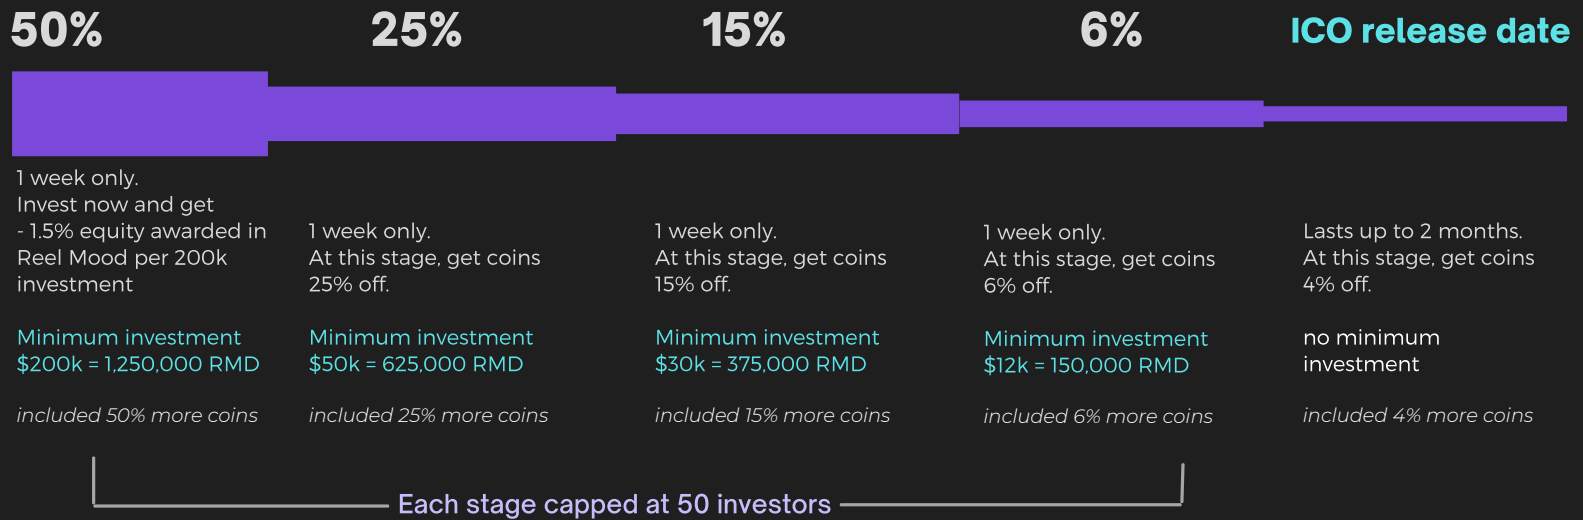

## SOLUTION

By tapping beyond the product delivery network, streaming providers can access the best network and shorter video packets when they need it most. This solution will allow intelligent players who can analyze users' activities and decide when changing networks will improve the viewing experience through the decentralized network.

## PRESALE BONUS

# PRESALE BONUS: up to 50%

Only 125,000,000 (\$RMD) Tokens will be issued during the presale stage.

## BENEFITS

# BENEFITS FOR EVERYONE

Reel Mood cryptocurrency (\$RMD) is an ERC20 token with duality functions.

**1** is for crowdfunding our ICO which you will also be able to trade after ICO.

**2** is acting as a main currency to use throughout the network.

Reel Mood streaming network is built on top of the Ethereum blockchain. It accelerates the bitrate speed of live stream videos to give a high quality viewing experience using P2P technology on a decentralized network.

# ROAD MAP

This timeline details our funding and development goals.

## November 2019

Idea and creation of  
Reel Mood

## February 2021

Network Prototype  
v1.0 created

## June 2021

ICO & Reel Mood Content Festival  
Ends

## August 2021

Launch of National Marketing  
Campaign

## December 2020

Reel Mood Content  
Festival begins

## March 2021

Start of ICO

## July 2021

Launch of Reel Mood Network ( Beta v 1.0)  
*(Investor and private invite only)*

## September 2021

Global Launch of Reel Mood Network

## TOKEN LEGEND

Token Ticker	\$RMD
Pre-ICO	March, 2021 – May 2021 Tokens to sell: 120,000,000 RMD
Token Sale	March, 2021 – May 2021 Tokens to sell: 5,000,000 RMD
Initial Offering Price <i>*subject to change*</i>	1,50 RMD
Currencies Accepted	BTC, ETH, LTC, USD
Soft CAP	1 Million
Hard Cap	10 Million
Token Delivery Date	14 days after closing token sale
